Waltman Construction 6th Grade Student of the Month

Congratulations to BCMS October “Student of the Month” Diesel McMillion. Diesel was nominated by his Math Teach Mr. Miller and his Engineering Tech Teacher Mr. Lewellen. According to Mr. Miller and Mr. Lewellen, "Diesel is a model student and an all-around great kid. He listens and actively participates every single day. I know I can count on him to work with others without complaint, a rare trait at any age. I greatly appreciate his hard work, insightful questions and desire to learn." “Diesel is a great addition to my 6th grade Engineering Tech class and has been turning out some great work. He has such a positive attitude towards school and classwork and wants to be the best version of himself. He is very innovative when it comes to generating ideas and will do very well next year in Engineering.” Diesel’s picture will be displayed at BCMS during the month of October. A special thanks to **Waltman Construction** for sponsoring the BCMS “Student of the Month”. Diesel will be receiving a “Student of the Month” plaque compliments of **Waltman Construction**.
