Spanish III-2 nd	Business Math	Geo & History World-2 nd	
French I-1 st	Biology-1 st		
French I-2 nd	Biology-2 nd		

How does Plato work? – Plato is an online learning program. All that is needed is an internet connection and the student can work at any time of the day, for as much time as needed. At the beginning of each course unit students will be given a pretest. The score on the pretest will not factor into the final grade, but gives the student an opportunity to test out of material they may already know. After the pretest, students will have approximately 20 tutorials that provide instruction on the material. There is a corresponding mastery test (5-10 question quiz) that goes along with each tutorial. Some tutorials also have a corresponding written assignment. Upon completion of all mastery tests in the unit students will then complete a posttest.

Grading: Final grades will be 30% mastery test average, 30% unit posttest average and 40% final exam average. All unit activities and/or course projects are extra credit. All grading is done by Brown County High School Staff. Students and staff may communicate through the Plato e-mail about any questions, comments or concerns or through regular Brown County email.

Summer school registration can either be mailed into the high school or scanned to the computer and sent through email to: dalwine@browncountyschools.com or squillen@browncountyschools.com. Registration DUE: June 1, 2020.

***BROWN COUNTY SCHOOLS WILL NOT PAY FOR OR REIMBURSE STUDENTS TO TAKE COURSES THROUGH INDIANA ONLINE ACADEMY OR ANY OTHER ONLINE PROGRAM.**

PLATO SCHEDULE

Event	Dates	Where/When
REGISTRATION FORM DUE	June 1	By mail to Guidance Office or email dalwine@browncountyschools.com squillen@browncountyschools.com
