Broadview Learning Center

705 W. Coolidge Dr.  
Bloomington, IN 47403

This course will prepare you for an entry-level HVAC technician position. It covers topics on the exam for the EPA 608 certification, which must be held by technicians who handle refrigerants.

This course is offered as a hybrid, face-to-face and distance education course. In the first phase of training, you will prepare for or the North American Technician Excellence Ready-To-Work Certificate by studying component identification, tools, math and measurement, general safety, electrical safety, and basic heat transfer. You will also do some workforce preparation activities.

When you have completed Phase I, you will enter the second phase of training. You will use an online course to learn core definitions, small appliances, high pressure appliances, and low pressure appliances in preparation for the EPA 608 certification exam.

## Why Certify with NATE?

North American Technician Excellence is the nation's largest nonprofit certification organization for heating, ventilation, air conditioning, and refrigeration (HVACR) technicians. NATE tests represent real-world working knowledge of HVACR systems and validate the professional competency of service and installation technicians. NATE certification is the gold standard for technician development in HVACR..

### Occupations for graduates of HVAC training programs in Indiana: Selected Labor Market Information

Occupation	Hourly wages	Employment			
		2012	2022	Total growth	Total openings
Heating, Air Conditioning, and Refrigeration Mechanics and Installers	\$16.16	4,815	5,624	809	2,029
Engineering Technicians, Except Drafters, All Other	\$22.09	1,401	1,449	48	338

- Total openings is the sum of growth and net replacements.
- Hourly wages is the 2012 Indiana median wage, which is midpoint between the lowest wage and the highest wage, for this occupation.
- For data questions, please contact [lmidata@dwd.in.gov](mailto:lmidata@dwd.in.gov).
